

Inzamam Rafaqat Ali

MERN Stack Developer

Lahore, Pakistan | +92 322 2789357 | irafaqat347@gmail.com

Linkedin: [inzamam rafaqat](#)

Professional Summary

Innovative and detail-oriented MERN Stack Developer with hands-on experience in developing full-stack web applications using MongoDB, Express.JS, React.JS, and Node.JS. Strong background in designing scale able architectures, integrating RESTful API s, and creating responsive, user-friendly interfaces. A collaborative team player passionate about writing clean, maintainable code and contributing to high-quality software solutions .

Technical Skills

- Frontend: React.js, Angular, Redux, Tailwind CSS, Bootstrap, HTML5, CSS3, JavaScript (ES6+), Ionic Ui components, NgPrime, React-Native
- Backend: Node.js, Express.js, PHP, FireBase
- Databases: MongoDB, MySQL, FireBase
- Tools & Platforms: Git, GitHub, Postman, VS Code, XAMPP

Other Skills: API Integration, RESTful Services, Problem Solving, Cross-Platform Development, Agile Collaboration

Professional Experience

Associate Software Engineer | Learn To Earn Tech | Feb 2025 – Present

- Built and optimized MERN stack applications ensuring scalability and responsiveness.
- Built and optimized React-Native applications ensuring scalability.
- Developed dynamic API s using Node.JS and Express.JS, and managed data using MongoDB.
- Collaborated with cross-functional teams to deliver end-to-end solutions.
- Integrated REST API s with React and Angular interfaces for seamless user experiences.

Front-end Developer (React.JS) | Social Swirl | Jul 2024 – Jan 2025

- Developed modern, responsive interfaces for multiple web applications using React.js.

- Ensured cross-browser compatibility and mobile-first design.
- Collaborated with back-end developers to integrate API s and optimize performance.

PHP Web Developer (Part-time) | Learn To Earn Tech | Jul 2023 – Oct 2023

- Created responsive and dynamic web applications using PHP and MySQL.
- Improved UX by integrating API s and optimizing data handling.

Projects

Serveayani (Full-Stack MERN App)

- Built responsive UI in React.JS and back-end API s using Node.JS & Express.JS.
- Managed data using MongoDB and integrated API s for seamless user interactions.

Ship Senator (Front-end & API Integration)

- Contributed to front-end design and API integration for shipment management.

Serveayani Admin Panel

- Designed data-driven dashboards and handled API integration s for admin monitoring.

Clothing Website (React + Tailwind CSS)

- Developed a 5-page responsive layout using React, Tailwind, Bootstrap, Universe.IO, and Swiper.JS.

Final Year Project: Auto Agro (Ionic | Angular | PHP | SQL)

- Created a full-stack agricultural marketplace enabling farmers and buyers to trade online.
- Designed an intuitive front-end with Ionic + Angular, and back-end with PHP & MySQL.

Education

Bachelor of Science in Software Engineering | University of Central Punjab, Lahore | 2020 – 2024

Relevant Courses: PF, OOP, Data Structures, Database Systems, Software Engineering, Design Patterns, Web Development, Machine Learning, Mobile Development, Software Quality Engineering, Advance Web Development

Soft Skills

Team Collaboration | Analytical Thinking | Adaptability | Time Management | Problem Solving | Continuous Learning
